BPA Solutions SA

BPA Solutions

Leverage the power of Microsoft 365 technologies to reach intelligent quality

2001

Founded more than 20 years ago

200+

Trusted by 200 + customers with **5-5000**+ licenses

25

Countries all around the world

2

Offices in Switzerland and the US

ENGAGING

SECURE

INNOVATIVE

Microsoft Preferred
Microsoft 365 Business Applications

How GenAI can positively contribute to Quality Management
Use cases

AUDIT MANAGEMENT

Reduce manual work

e.g. produce an audit report with reference to internal compliance documents

NON-CONFORMANCES MANAGEMENT

Simplify problem solving

e.g. finding similarities and avoid systemic issues

DOCUMENT MANAGEMENT

Find the right information

e.g. looking for documents by asking common questions to a chatbot

REGULATIONS

Comply with regulations

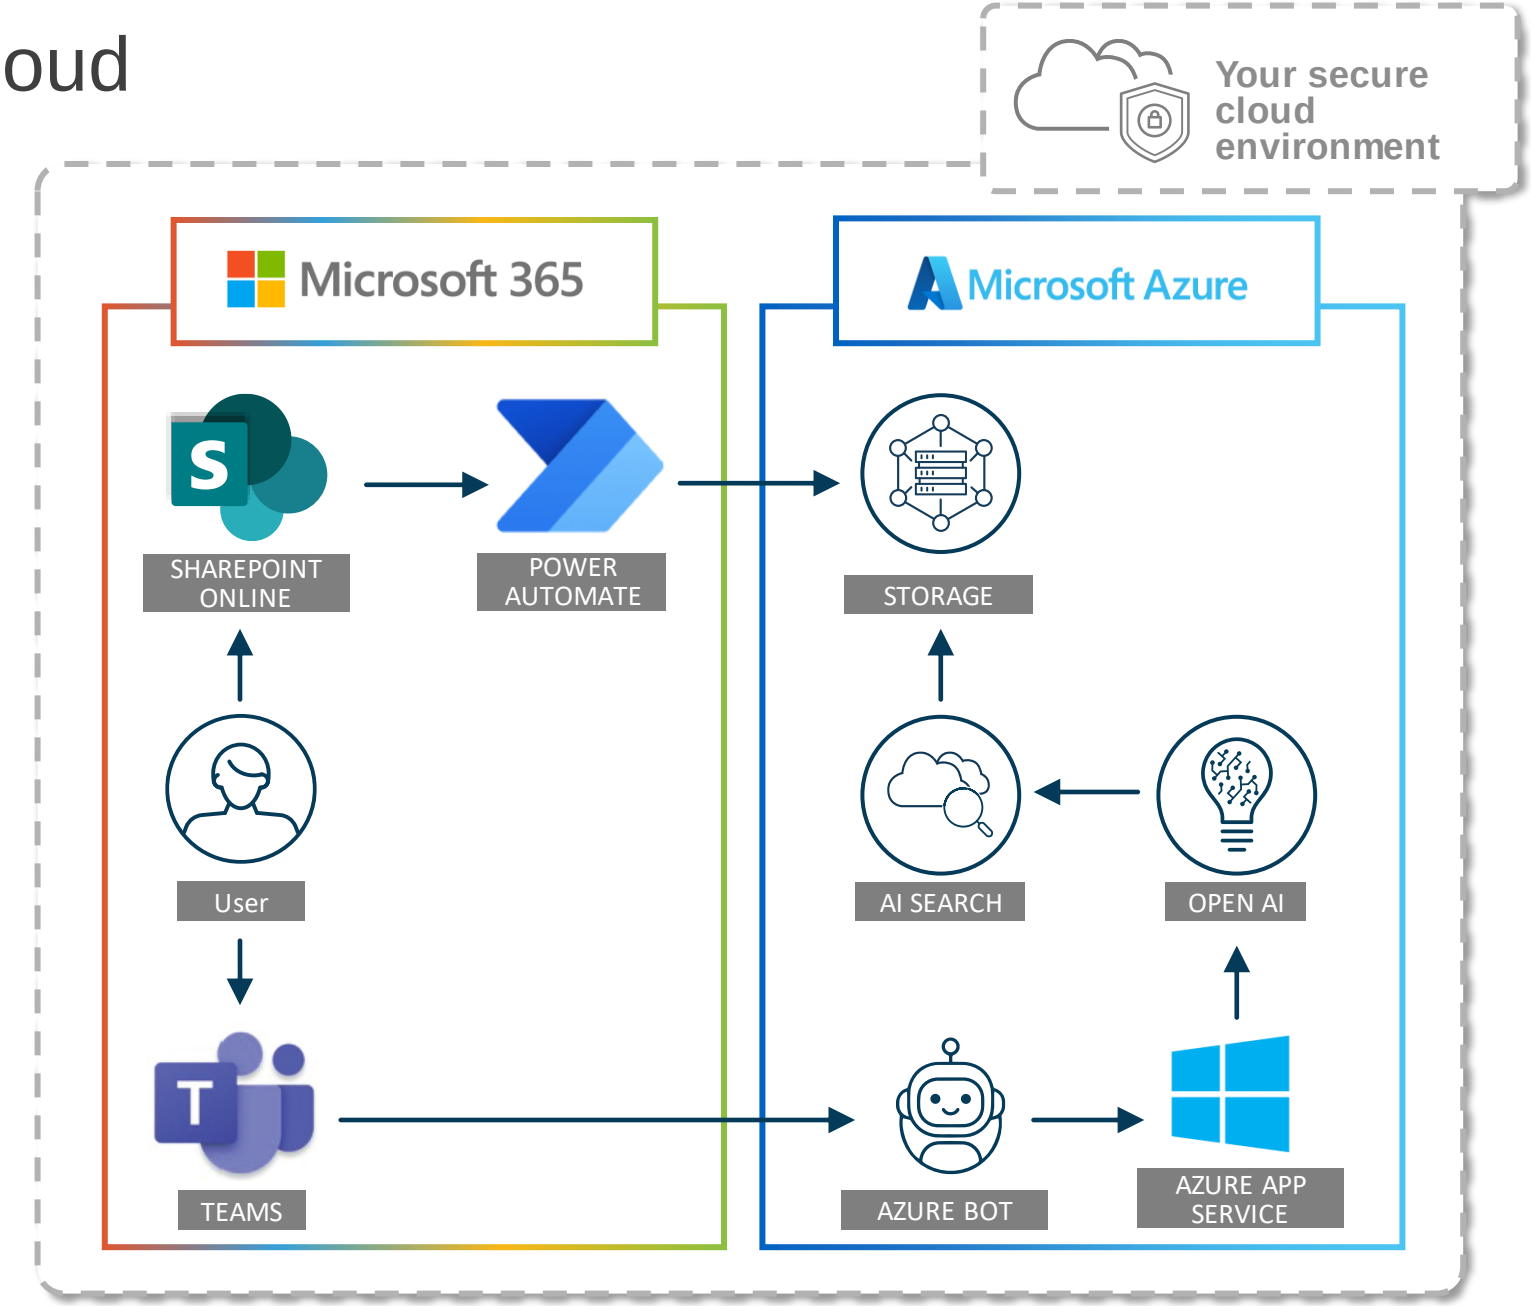
e.g. verify compliance with regulations

Q-Pilot in your secure cloud
How it works

- Simplifies quality management
- Reduces manual work
- Enables efficient compliance

No data goes outside your organization.

All transactions are secured in your M365 cloud.



Requirements, implementation and cost

REQUIREMENTS

- Microsoft 365 subscription
- BPA eQMS subscription
- Microsoft Azure environment in your cloud with Open AI, AI search

IMPLEMENTATION

- Quick start implementation package including :
  - 80 hours to setup apps,
  - automation and AI,
  - Training of power users

COST

- Open AI is a pay-per-consumption service, charged by Microsoft.
- Indicative price depends on the model used, GPT 3.5, GPT 4.0.
- For example: 50 users making 10 prompts per day with GPT 3.5 model → 150USD/month

For every $1 a company invests in AI, it is realizing an average return of $3.5X

New study validates the business value and opportunity of AI, 11.2023
